

Let's play Giraffes and Alligators

Get the whole family together for this fun game and make your next game night one to remember.

Giraffes & Alligators

How to play

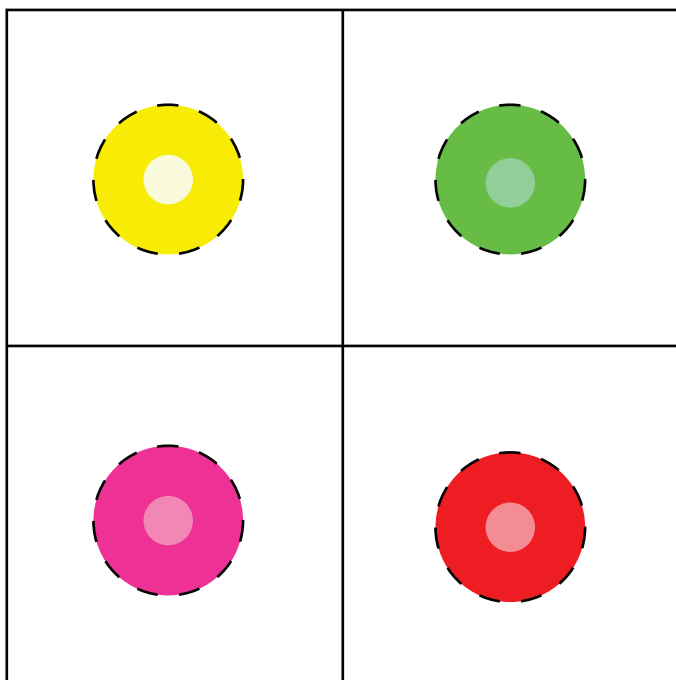

Choose a number card to see how many spaces you'll move ahead. If your token lands at the bottom of the giraffe legs, you can move up to the top of its head. If your token lands on the head of an alligator, slide down to its tail. The first player to land on Finish is the winner.

Colour Tokens

Cut out the circles to use as tokens. Each player selects a different colour.

Number Cards

Cut out and fold the numbers. Place them in a small container or bag. Each player chooses a folded number card and move that many spaces on the game board. The player must fold and return the number card to the container before the next player's turn.
